DETAILED ACTION

Response to Arguments

1. Applicant's arguments filed 11/29/04 have been fully considered and are deemed persuasive. Applicant primarily argues that the Holtzman supporting reference used in the previous rejection fails to deny permission to communicate a burst of data in the event that the communication conditions are less than a selected level of favorability. This and the other features distinguish applicant's invention from the referenced prior art.

Allowable Subject Matter

2. Claims 1, 2, 4-16, and 18-20 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding the claims, the examiner is in agreement with the applicant's argument throughout the prosecution as to the reasons for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
